

JICA 閉講式 締めのおいさつ 2018年9月21日

Hello, Hello.

We have enjoyed very much talking to each other. I think we want to stay here longer. However, I have to say that it is now the time to close the party.

We have 12 JICA trainees coming from 10 different countries have studied on the improvement of education in remote areas. Each of you got the certificate of completion of the course. Congratulations. During more than 3 weeks staying in Kochi, I believe that all of you have made good friends and had favorable impression on people in Kochi.

By the way, today is September 21. Do you know what today is called? It is The International Day of Peace. You can give your children a good education in every country because the peace of the world is being kept.

We had a good time here in this evening. I really hope that you make use of your experience and what you learned in Kochi for your country.

We look forward to meeting together again some time. Thank you.
